

OBJECTIVE: To use the order of operations to evaluate expressions and formulas.

Find the area or perimeter of each figure below as indicated.

$$A = \pi r^2$$

$$A = \frac{1}{2}h(b_1 + b_2)$$

$$P = 2l + 2w$$

$$A = 4s^2$$

Evaluate each expression for  $a = 8$ ,  $b = -6$ ,  $c = 4$ ,  $d = \frac{1}{2}$

5.  $\frac{a-b}{cd}$

6.  $\frac{d(c-b)}{a-c}$

7.  $bc - \frac{a}{b+c}$

8.  $\frac{c^2}{a} - d(b)$
