

For each degree or radian measure:

- Give a picture of the location on the unit circle showing the terminal side.
- List the reference angle in radians and degrees.
- Find the exact value of the six trigonometric functions.

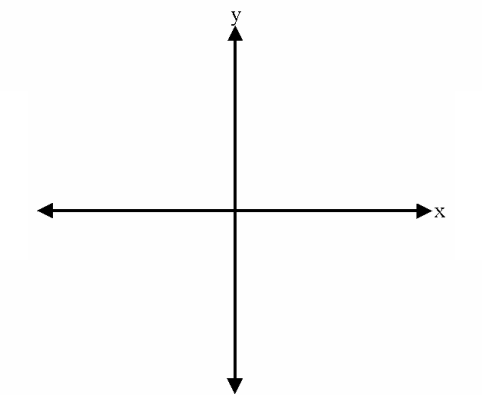

1. -2π

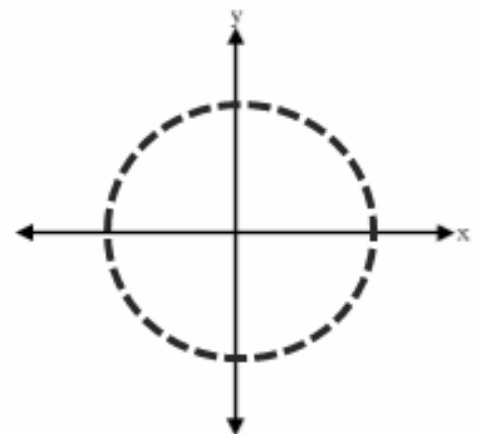

2. $-\frac{5\pi}{6}$

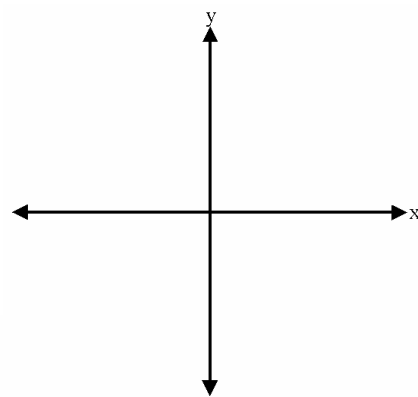

3. 855°

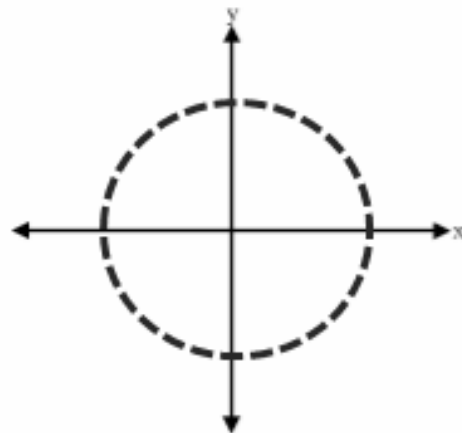

4. 5π

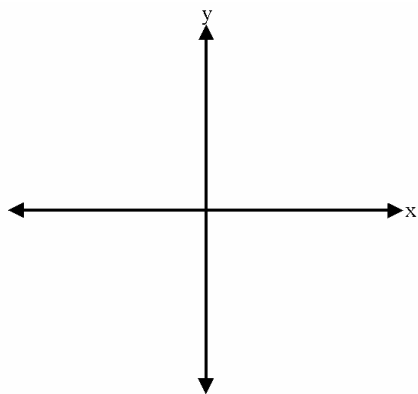

5. 600°

6. $\frac{17\pi}{4}$

7. -1050°

8. $-\frac{5\pi}{4}$
