

Graph each of the trigonometric functions by making a table of values. **Label both degrees and radians on the graph.**

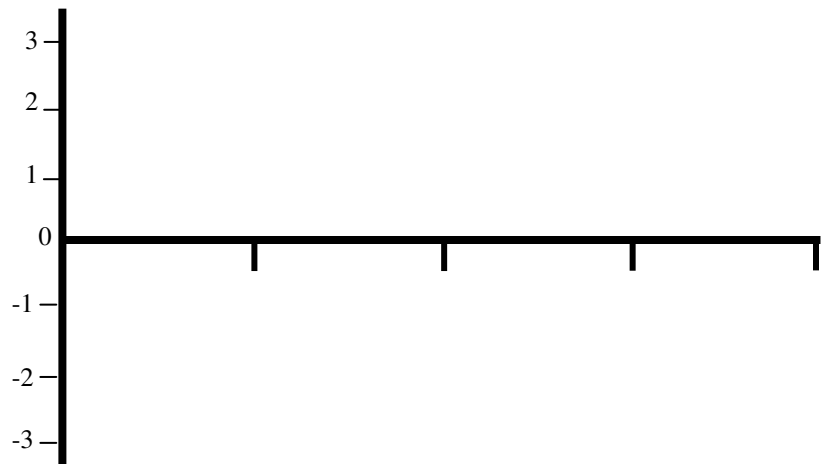

1. $y = -2 \sin \theta$

θ	x	y

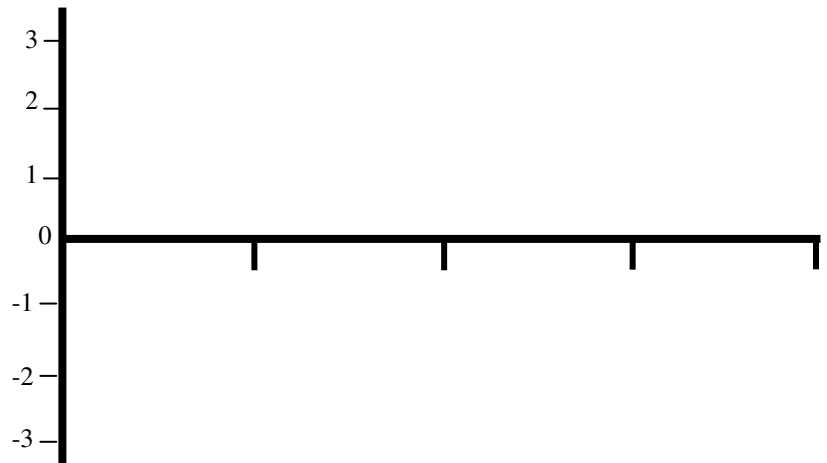

2. $y = 3 \cos \theta$

θ	x	y

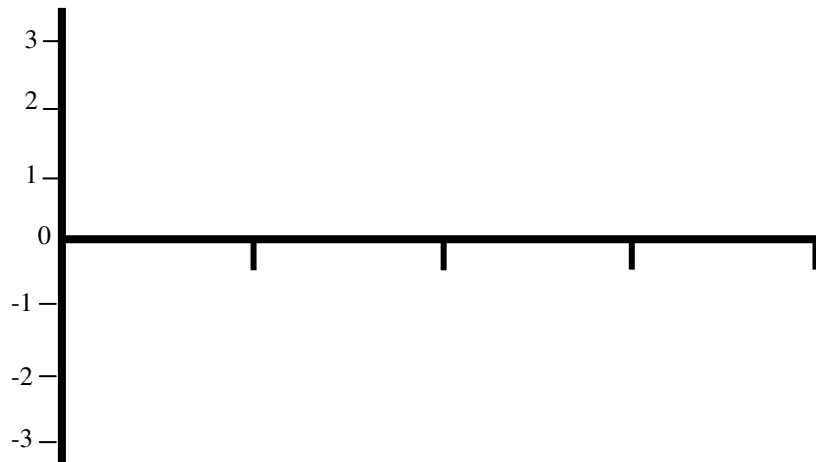

3. $y = \frac{1}{2} \sin \theta$

θ	x	y

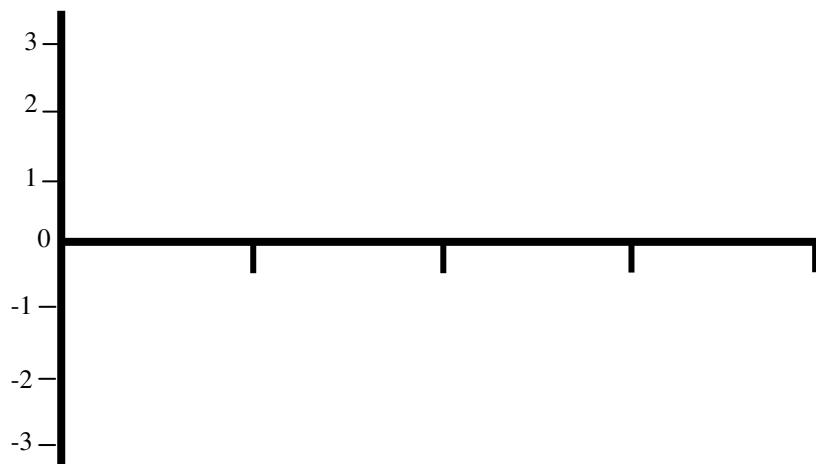

4. $y = -\csc \theta$

θ	x	y

5. $y = -2\sec \theta$

θ	x	y

6. $y = -\tan \theta$

θ	x	y
