

Use the vectors above to find the magnitude, direction, and components of each resultant below.

1. $\vec{s} + \vec{t}$

2. $\vec{s} + \vec{u}$

3. $\vec{u} - \vec{r}$

4. $\vec{r} + \vec{t} - \vec{s}$

5. $3\vec{u} - 2\vec{s}$

6. $3\vec{t} + 2\vec{s}$
